

HIREON

AI-Powered Recruitment Platform

Monthly Retainer Proposal

Overview

Hireon is a production-grade AI recruitment platform designed to handle up to **5,000 candidates per month**. The platform includes a dedicated **Admin Portal** and a **Recruiter Portal**, backed by enterprise infrastructure ensuring 24/7 availability, secure data storage, and automated AI-driven candidate processing.

What's Included

Service	Description
Enterprise Database & Secure Storage	Permanent data safety with daily automated backups
Dedicated Cloud Server & Load Balancing	24/7 uptime with zero-downtime architecture
AI Processing Engine	LLM-based resume parsing and audio transcription
Email Delivery & Notifications	Automated candidate communication via premium servers
Security, Domain & SSL	Firewall, DDoS protection, SSL and custom domain setup
Admin & Recruiter Portals	Full access to both portals with continuous updates
24/7 Technical Support & Maintenance	Server monitoring and bug fixes — no in-house dev needed
